TIP Sheet for Teachers

Using Independent Learning products in the Differentiated Classroom

Duke TIP Independent Learning materials assist teachers in providing differentiated instruction for gifted learners. Listed here are a variety of differentiated instructional strategies that help integrate Duke TIP materials with other lessons and units. Teachers may choose to use Duke TIP Independent Learning materials as a whole course or to supplement existing curriculum.

• **Anchoring Activities (also known as sponge activities):** Students engage in specific skill practice, enrichment or extension work for a short period to “anchor” them as class begins or when they have completed an assignment or test.
  o Resource: View an overview PowerPoint at [http://www.mcps.k12.md.us/curriculum/enriched/giftedprograms/docs/anchor.ppt](http://www.mcps.k12.md.us/curriculum/enriched/giftedprograms/docs/anchor.ppt)

• **Curriculum Compacting:** Students “compact” or eliminate material already mastered and move ahead to more challenging work.
  o Resource: Theory behind curriculum compacting at [http://www.sp.uconn.edu/~nrcgt/sem/semart08.html](http://www.sp.uconn.edu/~nrcgt/sem/semart08.html)

• **Enrichment Clusters:** Students are grouped and re-grouped according to interest areas.
  o Resource: Developing an enrichment cluster at [http://www.gifted.uconn.edu/sem/semart01.html](http://www.gifted.uconn.edu/sem/semart01.html)

• **Learning/Interest Centers:** A designated area or portable center enriches a student’s interest in a given content area while students rotate among centers by choice or as assigned by the teacher.
  o Overview of learning/interest centers at [http://www.saskschools.ca/curr_content/bestpractice/centres/index.html](http://www.saskschools.ca/curr_content/bestpractice/centres/index.html)

• **Independent Study Project/Learning Contracts:** As part of curriculum compacting or a homework project, students pursue a topic of interest with a mentor, tutor, or other teaching assistant.
  o Overview of learning contracts at [http://www.saskschools.ca/curr_content/bestpractice/contract/index.html](http://www.saskschools.ca/curr_content/bestpractice/contract/index.html)

• **Seminars:** A small group of students learns more about topics not covered in the regular classroom, extends a topic already learned about in class, or uses Socratic discussion to explore concepts and themes in depth.
• **Tiered Assignments:** Students engage in one of a range of skill or content learning opportunities differentiated to student readiness, learning style, or interest areas. A teacher might provide three or more tiers for students to investigate.
  
  o Resource: Overview of tiered assignments:
